ELECTRIC OIL

THE CURES MADE BY PROF. DE
GRATH, with his "ELECTRIC OIL,"
are so near miracles as to resemble the famed Scripture accounts of similar cures in ancient times by the
anointing with oil, and these cures are so wonderful
and instantaneous, so satisfactory and mitigating of
human ill, as to call upon public functionaries, and
those having charge of public institutions for the
sick and suffering, to look well into the well attested
merits, the simple efficacy of this "Electric Oil."

Professor DE GRATH, therefore, has deposited \$100
with the Mayor, the same to be forfeited if the "Electric Oil," soid at Philadelphia, fails to cure a single
case of Rheumatism, or Pains in the Back, or Limbs.
Plies, Sores or Burns, Fever Sores, Ulcars, Caked
Glands, Felons, Stiffness in the Joints, Sprains,
Bruises, Sores, on man or beast, or Scratches and
Splints on horses; also, Deafness

Price 20 cents, 30 cents, and \$1 per bottle.
Caution, Be sure and get DE GRATH'S ELECTRIC OIL. It is the only genuine.

Local News.

Metrorological Observations, for the Daily Press by Henry Ware, Opticiau, No. 7 West Fourth street. Corrected daily. Barometer. Thermometer. 7 A. M..... 12 M..... 6 P. M.....

THOSE who have any doubts about their being "born to luck," now have an opportunity of testing the matter in a good cause, by calling at the Gift Book Store opposite the

post-office. WE take pleasure in calling the attention of the afflicted to the card of Dr. Blaisdale this morning. We learn that he has been very successful of late with the numerous cases that have been placed under his treatment.

WE learn that on Wednesday last, the passen ger train on the Fort Wayne and Chicago road was thrown from the track by running over a horse. Several passengers and the expressman were killed, and others wounded. The locomotive, baggage and two passenger cars were badly smashed up. No farther particulars.

FERS PAID BY THE COUNTY IN THE COOK Case.—The total amount paid to parties summoned and excused from serving as jurors in the case of the State against Charles Cook, is \$936 30, which includes mileage. Each individual received \$1 50 per day, and those who came from the country, mileage at the rate of five cents per mile.

A LADY at Cambridge, Penn., had an eye gouged out and a cheek bone broken by a "serpent," fired off in the street where she was walking. We hope the Mayor of our city will issue his proclamation against the firing of these dangerous articles of fire works within the jimits of the city. The Policemen, we hope, will be directed to arrest every one caught firing them.

COMMISSIONERS PROCEEDINGS .- Bills amounting in the aggregate to \$163 44 were passed by the Board yesterday morning-the most important of which was \$69 30 for bill of vege tables for Lick Run Lunatic Asylum. In the vegetable bill was a small sum charged for fifteen quarts of strawberries. That the patients are sometimes indulged in the luxuries, as well as the substantials of life, the above is conclu-

BENEFIT OF ADVERTISING .- Mr. Shepherd. returned Pike's Peaker, has just informed us that he saw one of Church's telegraph advertisements conspicuously posted in Hill & Co.'s store, Council Grove, Kansas Territory, nearly one thousand miles hence, and the last settlement of any note between here and the mines. We expect Church little thought that his poetical effusion would travel so far, but who can foresee the stopping place of a well written advertisement.

"FIRE IN THE MOUNTAINS-RUN. BOYS. Run."-The Boston Atlas and Bee tells the following cool story:

A fashionable wedding took place at the West Church, yesterday afternoon, Rev. Mr. Bartol officiating. The happy couple propose to spend the first flush of the honeymoon among the White Mountains.

Many a "fashionable wedding" would transpire in the Queen City, hastily, if the happy couple only had the "White Mountains" hard by, where they could "spend the first flush of the honeymoon."

COUNTY SURVEYOR'S REPORT .- In the County Surveyor's report yesterday morning, to the Commissioners, he calls their attention to the immediate action that should be taken for repairing the Cincinnati and Carthage Turnpike. He recommends that a sewer, six feet in diameter and three hundred and fifty feet long, be built at the point where the ravine first strikes the road, and that a wall be built at the second point, fifty feet long, and one at the third point, one hundred and fifty feet long, and at the fourth and last place, where the creek makes a turn to the road, should be a wall about sixty feet long. The Surveyor recommends immediate action in the matter.

THE BALLOON ASCENSION AND FIRE WORKS EXHIBITIONS ON THE FOURTH .- The preparations now making for the balloon ascension by Mr. J. C. Belman on Monday afternoon, and display of fire works by Mr. H. P. Diehl, in the evening, are very extensive, and must result entirely satisfactory to all who extend to these gentlemen their patronage. The lot will be enclosed by a canvass twenty-four feet in height; and over the seats, extending more than half way round the lot, an immense awning will be erected to protect the occupants from the rays of the sun, thus giving the City Lot the appearance of an immesse amphitheater. The balloon ascensions to the altitude of several hundred feet taking up ladies and gentlemen will be quite a novelty and must create a great fund of amusement. Mr. Belman, accompanied by Capt. H. Godman, of the mail steamer Telegraph, will leave this mundane sphere at 6 o'clock. The exhibition of Fire Works will be the chief place of amusement in the evening. The pleass to be burned are very costly and will exceed in magnificence any Pyrotechnie display heretofore given. Messrs. Belman and Diehl are long residents of Cincinnati, and as these gentlemen have gotten up two grand entertainments, at a cost of over one thousand dollars, it is hoped that our citizens, one and all, will cheerfully go inside the enclosure, and thus aid them pecuniarily. The advertisement in another column gives the prince of admission.

CITY COUNCIL.

SPECIAL MEETING-LAST NIGHT'S PROCEEDINGS.

A resolution was offered, instructing the City Au-ditor to lease the foot of Lewis street, to William and S. L. Green, for the term of three years, on condition that ther keep it in repair, and pay a rent of \$15 per annum; and another, that foot of Broad street be leased to John Weeks and Chas. Vance, for one year,

for the sum of \$10. Parsed.

Mr. Meyers introduced a resolution asking that the General Assembly be petitioned to grant the privilege of using the Orphan Asylum lot-herstofore purchased for Park purposes—on which to build a Commercial Hospital; and further that Council be empowered to borrow monies, if necessary, for the purpose of building a Hospital.

Mr. Torrence moved that the Orphan Asylum lot Mr. Ross moved that the resolution be referred back to the Committee, to report at a future meet-

ing. Carried. Mr. Runyan offered a resolution instructing the City Auditor to contract with the proprietors of the Daily Enquirer to do their city advertising at their

Mr. Marsh could not understand the course of Mr. Runyan. He voted against the Enquirer at the last meeting, and now comes around in its favor. He could not understand the working of "these dog-

Mr. Meyers thought if the Enquirer be included, the Volksblatt should. Mr. Torrence was under the impression that there

was something new in the wind. He had heard talk of a "big article" having been written and that might have something to do with it. He hoped that members would stand up to what they think is right, and not be afraid of these editors, who can write articles that will knock the best man in the

community "sky-high."
Mr. Eggleston entered into an explanation as to the contract of last year. He was in favor of laying the municipal proceedings before as many of the citizens as possible, and for that reason he was it favor of including the Enquirer.

Mr. Weasner "joined in" with a rouser in opposi-tion to the Enquirer in general, and in favor of Thos. H. Weasner in particular. He had learned that the Enquirer was going to come down on him in a flam-ing article—he did not fear them—his character was established, and was as fair as that of any in the Enquirer establishment. All he asked of them was to state nothing but facts,
Uncle Joe Ross also 'took a "rip" at the Enquirer,

He didn't kuow whether he had any character or not, and didn't care. He was "all fuse and feathers;" used a large amount of bad English, and said less the more he talked. His wind finally gave out, and he setfled down collapsed.

Mr. Noble took the floor in favor of awarding the advertising to the lowest bidder, as the ordinance

prescribed. who asserted some time ago, that the Constitution of the United States prescribed that a "cord of wood should be eight feet long, four feet wide, and four feet high, and that every woman and child in the country knows it," spread himself most brilliantly. He was, unfortunately, (for the Enquirer, we suppose,) a carrier of that sheet once, and he knew that its circulation was only two thousand. No one could tell Him any thing about it; he knew all about it, and would much rather see the Press have it. He soon ran out of small talk, (not knowing more than the law allows,) and backed down-"gin out." [Old Munchausen isn't a circumstance. The man with the ash-cart comes to mind-we can't do the subject

instice.1 Messrs, Mack, Meyers, Marsh and Moore expressed themselves in favor of letting the monest bidder enjoy the contract alone, at a loss to the city of at least PIVE HUNDRED DOLLARS.

Mr. Snodgrass moved that the Press be inserted in place of the Enquirer. Lost. Mr. Runyan's resolution was then put and lost. Mr. Mack called for the special order—the Street Railroad Ordinance—which was read.

Mr. Noble moved that his resolution in relation to btaining the consent of the majority of propertyholders on proposed lines, be adopted as an amendment to the second section. Carried by a majority of

ence to railroad companies buying out omnibus lines, with which they conflict, be stricken out. This was the signal for a protracted and words fight, in which all the leaders of the railway and anti-railway factions participated. During its dis-

cussion the previous question was called and voted down. The motion to strike out was lost. Mr. Kiersted offered an amendment to the third section : that all tracks laid conform to the Obio

Mr. Toohy moved that the amendment to the sec ond section in relation to gaining the consent of the majority of property-holders along the proposed lines be stricken from the ordinance. Carried Mr. S. S. Davis proposed that the section requiring that companies accepting the previsions of the ordinance, be required to give a bond of fifty thousand dollars for faithful performance of contract, be

stricken out. Lost. stricken out. Lost.

Mr. Pearce offered an amendment to seventh section, "that when companies or individuals bid, that they also state what prices they will issue communation tickets in packages of not less than twenty-five."

Mr. Hambleton moved that "cach and every day," in the section regulating the running of cars, be stricken out. Carried.

The previous question being called for by Mr. Moore, the motion succeeded, and the ordinance passed to its engressment by a vote of 21 to 10, and was finally passed by the following vote, 21 to 10; which was enthusiastically received by its friends inside and outside the bar.

Adjourned.

LATEST BY TELEGRAPH

REPORTED FOR THE DAILY PRESS See telegraphic news on first page.

New York Items. New York, July 1 .- The Mr. E. C. Smith, of Wall street, whose name appears among the victims of the disaster on the Michigan Southern Railroad, was a partner in the Ma-rine Bank. He was a widower, and has left a

number of children.
The American Express Company has promptly made an arrangement with the agents of the steamship Glasgow, which leaves this port to-morrow at twelve o'clock, to call at St. Johns, Newfoundland, and take the passengers of the Argo, who will be forwarded to their destination.

The business in stocks this morning was still more unsatisfactory to holders, prices undergoing a further decline. The depression is again most marked on railroad shares, though the better class of securities are not exempt from the dull and heavy feeling observable

throughout the market.

The heaviest depreciation was in Michigan guaranteed and Galena, which are each 1/2(6) per cent lower. The former is pressed for sale in view of the heavy damages in which the Company is likely to be involved by the serious accident near South Bend, at a time when

this least able to pay them.

Chicago and Rock Island was among the steadlest on the list, being sparingly offered at 58%. Illinois Central continues to improve, and the steadlest of the stead of the selling to-day at 6214 cash and 6234, soller 30 days. There was very little change in rail-road bonds. The State stocks are freely offered and Missouri and Tennessee sixes are

again lower.

The day has been a busy one in the money market, more so perhaps than at any time of the past year. The banks and private banking houses have quite a lively appearance, and a large amount of money will change hands before the close of the week. The changing of loans is active and a good demand is observable throughout the market, though it is noticeable that no stringency appears in any quarter.
Fresh loans are freely effected at 6 per cont.
The Saxonia for Hamburg took \$100,000 in specie on freight. The Ocean Queen and

Kangaroo, for Europe, to-morrow, will take in specie, \$1,300,000.

Rallroad Matters.

READING, Pa., July 1 .- A meeting was held resterday at Ephrata, for the purpose of orbeing the last line to complete the connection between New York and Baltimore and Washbetween New York and Dantimore and ington, via the East Pennsylvania railroad. The county of Lancaster, the cities of New York, Reading and Columbia and the villages along the route were largely represented. The along the route were largely represented. The meeting, by an unanimous vote, directed the Commissioner to open the books for subscriptions of stock.

Particulars of the Loss of the Steamship Argo.

St. Johns, N. F., July 1.—All of the passengers who were aboard the steamship Argo, which was wrecked in Trepassy Bay a few days since, have arrived here safe. The steam tug left again, to-day, to bring up the crew and what was saved from the wreck.

The following are the particulars of the dis-

Between three and four o'clock on Tuesday morning the Argo made Cape Pine, bearing twelve miles distant from the coast; the pilot captain, crew, and all the officers, were called on deck at the sight of land. The course of the ship was changed, and made S. E. by E. This should have cleared her fifteen miles from Cape Race. About a quarter past four o'clock, a very dense fog came up. At half past five o'clock the captain spoke a fishing schooner. He stopped the engines and reversed them, and halling the schooner he asked: "Where are you fishing?" Answer: "On the Eastern side of Travessy Ray swer: "On the Eastern side of Trepassy Bay, a mile and a half or two miles off." The Captain ordered the helm to be put hard a port, the engines to go on in full sapeed, and the vessel to be kept S. S. E. by the standard compass. This should have taken her clear of the land. The Captain and all the officers were on deck. The officer in charge of the wheel gave the order, "steady," as the ship brought up to her S. S. E. course. At that moment breakers were seen and the engineer again stopped, and reversed at full speed.

Before the ship got sternway upon her, she grounded her bow on the rocks at Fresh-water Point, eight miles from Trepassy. The boats were lowered and got ready, when the passen-gers embarked with but little confusion, the women and children being cared for first. Anchors were then passed out the stern, the coals thrown overboard, the forward boilers blown off, and every exertion made to get her off, but without avail. The Captain now sent off the pilot to Trepassy to get assistance, when the steamers Dauntless and Blue Jacket were dispatched immediately for assistance. Sales, &c., were sent ashore and tents made to protect the passengers, and when the provisions and luggage could be got at, they were also sent ashore. The fishermen then commenced plundering the ship; about one hundred came around her on bearing the signal guns of distress. They cut away her masts and completely skinned her. At four P. M. the ship filled, fell on her beam ends, and sunk in six fathoms water. The baggage be-

longing to many of the passengers was lost.

There was no house within eight miles of the spot where the steamer struck. At 5 P. M. a boat returned from Trepassy with assurances that two steamers were on the way from St. Johns to assist them. Tuesday night was assed in tents with a tolerable degree of com-

On Wednesday the steamers arrived brought off the passengers and a part of the aggage.
They return this afternoon for the crew,

taking with them a company of soldiers and police officers to recover that portion of the property stolen from the ship. Divers will also be sent to get out anything that can be recovered for the week. The passengers are all quartered and provi-ded for here. They will be sent on as soon as

the arrangements can be made.

The Great Balloon Expedition. St. Louis, July 1 .- The first grand experimental air voyage to the seaboard took place from Washington Square this evening, Profes sors Wise, Lamountaine and Gager having made a successful accession in the mammoth balloon Atlantic, at forty minutes past six o'clock. The inflation was witnessed by thousands of citizens in the square, and outside the inclosure was thronged with excited spectators. William Hyde, reporter for the Republican accompanied the eronauts, but should his weight prove an obstruction to the passage of the balloon, he will be landed at a favorable point; and this course will be repeated, if neessary to the accomplishment of the end in view, until all the party excepting one, to-gether with the boat, will be landed—Professor Wise being determined to reach the Atlantic

coast if such a thing be possible. A package containing letters, St. Louis papers and Western exchanges, was sent by the United States Express Company, which will be forwarded to their agent in New York from whatever place the eronauts alight. It is expected that they will reach some point on the seaboard between 9 and 12 o'clock to-

seum, preceded the main party in his balloon Comet, designing to accompany the Atlantic a short distance, and return in the morning, if the weather is favorable.

The balloon took a direction towards Lake Erie, but when last seen was pursuing course almost due East.

Mr. Brooks, manager of the St. Louis mu-

From Washington. Washingorn, July 1.—Capt. Van Vleit, U. S. Assistant Quartermaster, has submitted to the War Department a reply to the charges recently preferred against him for alleged misconduct in connection with the purchase of mules for the army, and the Secretary of War, after a mature deliberation of the same, has decided that the explanations and testimony render any further notice of the charges

uncalled for and unnecessary. The Postmaster General has ordered of G. T. Nesbitt, of New York, contractor, one mil-

ion stamped envelopes, with the new selfsealing improvement.

They will be furnished to the public at five cents per hundred more than is charged for

the present pattern. The statement contained in a letter from Camp Floyd, and extensively published, charging the Scretary of War with being personally interested in the contracts with Hal-liday and others, for supplying flour to the troops in Utah, is wholly destitute of truth. The arrangement for this service was made in the regular course of business, after adver-tisement, with the proper officer, and by which at least \$100,000 are saved to the gov

ernment.

From New Mexico. Sr. Louis, July 1 .- The New Mexican mail with dates from Santa Fe, reached Indepen-dence to-night. The Democrats have nominated Otero for re-election to Congress. An expedition was fitting out at Albuquerque to chastise the Navajo Indians.

Outward Bound.

HALIPAX, July 1.—The steamship Europa from Boston to Liverpool, arrived at this port at 9 o'clock this evening and sailed again at half past eleven.

MONETARY.

Cincinnari, Thursday, July 1—3 P. M.—
Monday being the Fourth of July, the notes maturing on that day will be due on to-day (Saturday, This brings the transaction of three days into one, viz.; the 23, 24 and 4th. The preparation making for payments due on those days has created quite a domand for money, and bankers are holding off until after the National Holiday. To-day the checkings were remarkably heavy, and a number of the houses report a scarcity of currency.

Enstern Exchange remains firm at % selling.

Missouri money is bankable, with the exception of the Farwer's Bank and the Western Bank.

Illinois and Wisconein mensy heavy, at 26,254c. discount.

MARKETS.

Cincinnati Produce Market.

REWING MACHINER

FRIDAY EVENTES, July 1.

FLOUR—There was a fair local demand for flour to-day, and the market was steady. There were also several small orders in market from points east of this place, which together with the light receipt enabled nolders to obtain this prices, though at the close, under the unfavorable advices from New York, the market was weaker, About 50 bris. sold at 66% in for superfue, and 55 5006 50 for extra 530 bris. were received the last 34 hours.

WHISKY—The market for this article is very dull and unsettled, and prices lower. The sales comprise 520 bris. at 2256c. and 458 do. at 25c. The receipts are large. large.
PROVISIONS—The feeling in the market is duller and there seems to be little or no demand to-day for any article; 80 bris. Mess pork sold at \$15.85, and 60 bris Lard at hie, yesterday. Bacon is dull at \$4.00 bris.

and 9c.

GROCERIES—The market is unchanged and steady with a fair demand.

GROCERIES—The market is unchanged and steady with a far demand.

WHEAT—The market continues dult and prices are tending downward, though there is no positive decline; sales 100 bush, cho.cs Hed at \$1 25, and 800 do. prime New Hill at \$1 35.

New Orleans Market.

Cotton; sales 1,300 bales at 115(611%c, Saels of the week 7,000 bales; receipts 1,100 bales against 5,500 bales; present stock, 54,000 bales.

Coffee firm at 115c; sales of the week, 4,000 bags; present stock, 31,000 bags. COLUMBUS NEWS. COLUMBUS, Friday Evening, July 1.

MEXICAN VOLUNTEERS .- The Mexican Volun-

teers met at 'Squire Irilley's office last evening, and agreed to participate in the coming celebration of the Fourth. A committee, consisting of Major J. Neiramer, Ed. Lilley and John Weaver, was appointed to confer with the Marshal as regarding their position in the procession. Capt. Reynolds was appointed Marshal and authorized to appoint one of their

number to carry the regimental colors of the 2nd Ohio regiment. RUMORED ARREST OF A MURDERER.-The Journal reported this morning, that a dispatch had been received by Sheriff Park, stating that Fronenberger, one of the murderers of Henry Korrell, had been arrested at Crestline. On visiting the Sheriff's office to-day, we learned that they knew nothing about such arrest, more than was in the Daily Journal this morning, although they claim to have good authority in stating that Fronenberger has been hanging around in that locality for

the last three months. PROBATE COURT .- The next term of the Probate Court will be commenced on Tuesday. There is forty cases on the docket; for assault and battery, twenty-eight; petit lareeny, ten; resisting officer, one, and selling intoxicating liquors one. From the number of cases for assault and battery, it seems that the warm

weather has no effect on the pugilists. MARRIAGE LICENSES.-Thirty-one marriage licenses were issued by the Probate Court during the month of June. Comparing this with the same month last year, there is an increase of one. Rather doubtful progress in matrimonial affairs.

SCLDIERS OF 1812 .- The Committee of Arrangements have made all necessary arrangements to have a happy reunion of those gallant old heroes on the Fourth. This is as it should be, but many dislike their position in the procession.

RECOVERING.—The gentleman who drank a half gallon of "rifle" on Wednesday evening, instead of Thursday morning, as stated in our article of yesterday, is again about and able to walk around. He should be exhibited to the assembled thousands on the Fourth. Election .- Mayor English has issued his proclamation, calling an election for a Coun-cilman in the First Ward, on Thursday, July 14th. Thus, the contested election car

been ended. DRAYMEN .- The Draymen met at the City Hall last night and agreed to join the Citizens, in celebrating the coming anniversary of our National Independence. Mr. F. Spade was selected as Marshal. THE PARADE,—The parade of the Franklin Fire Company will take place to-morrow after-

noon. The steam engine, America, and Co-lumbia Hook and Ladder Companies will also be in the procession.

The Organis.—To-morrow evening Kinney's Juvenile Minstrels, or "Orphans," take

their grand benefit at Armory Hall, We hope to see it crowded. Ansconden.—Sars. Clark, whose trial was set for to-day before the Mayor, charged with receiving stolen goods, came up missing. THE ABBUCTED CHILD,—Nothing has yet

the child mentioned yesterday. Columbus Advertisements.
